Signature Workshop

Planning with a Twist is not a "vision board" party. Instead, participants will work on combining the general elements of the "vision board" concept into an actionable Personal Strategic Plan (PSP).

Kimika Garrett (the facilitator) is known as a "master" planner. Meaning, she has a plan for EVERYTHING (plus backup plans)! She has transformed the same strategic planning methodology that businesses use into an interactive and actionable framework that each participant can apply to their lives. A unique, iterative approach to planning is the basis of Planning with a Twist, which will allow participants to leave the session with a Personal Strategic Plan that is relevant and actionable.
